

Reno Cold 1700/2200

The Reno 1700 and 2200 are multi-purpose High Pressure Cleaners, designed for effective, quick and economical cleaning - indoors and outdoors.

The purpose of designing this cleaner has been to develop a lightweight and easy to handle high-pressure cleaner which could be used where practical requirements call for thorough cleaning.

Reno 1700 and 2200 is used with advantage in institutions, public undertakings, bakeries, butcher's shops, garages and within the agricultural and contractors sector.

The pumps are equipped with ceramic pistons

The models run very smoothly and do not produce much noise.
